PROFILE

I am a student at Wikrama Bogor Vocational High School I am currently 16 years old, majoring in Software And Game Development. I have hands-on experience creating various websites, including an attendance system, a school enrollment platform for SMK Wikrama Bogor, a chat application, a portfolio website, a student data management system, a cashier system, a motorcycle rental service, and a shopping site.

I have completed basic cybersecurity training from Kominfo and actively participate in bounty hunting for vulnerabilities in web applications. My skills include developing both static and server-side websites using technologies such as Laravel, PHP, JavaScript, Node.js, Express.js, Livewire, JSON, HTML, CSS, Bootstrap, and Tailwind. Beyond web development, I am deeply committed to becoming a Web Designer, cybersecurity specialist, and successful bounty hunter.
